

Country Context Report for Macedonia

Literature review/mapping

There are not many materials and literature about the stakeholder participation in schools in Macedonia. At least not that is directly referred to the topic.

Nevertheless, there are several projects and papers which are connected to the state institutions initiatives or donor projects that are trying to explore the themes connected to the education inclusion most often through the social inclusion.

Survey logistics

- Is it necessary/desirable to seek permission from relevant ministries to carry out interviews with school directors in your country?

There is not necessary to provide such a permission.

- Are any other formal procedures necessary?

No.

- Have you access to a national list of all those public schools in your country which cover at least 1st -8th grades?

Yes, we have an access.

- If so, what data does this list include (name of principal, address and phone, urban/rural, school type?)

It has some of the basic information.
